PROFESSIONAL SUMMARY

Full-stack developer with 4+ years of experience building mobile and web applications with React Native, Expo, Next.js, Node.js and NestJS. Shipped e-commerce, dating, job-marketplace and business card apps for Android and iOS, and built field data collection, point-of-sale and accounts receivable systems. Background in accounting and auditing, which helps in building business and finance systems that match real operations. Experienced in turning Figma designs into production interfaces and in AI-assisted development.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, SQL, HTML, CSS
- **Frontend & Mobile:** React, React Native, Expo, Next.js, Redux, Tailwind CSS
- **Backend:** Node.js, NestJS, RESTful APIs, TypeORM, Directus, Firebase, Supabase
- **Databases & Caching:** PostgreSQL, MySQL, SQLite, Redis
- **Desktop:** Tauri
- **Tools:** Git, GitHub, Nx monorepo, Vercel, Figma, ClickUp
- **Integrations & Automation:** RevenueCat (in-app purchases), n8n, Bluetooth thermal printing (ESC/POS)
- **AI-assisted development:** Claude Code, MCP integrations (Figma, PostgreSQL, ClickUp)
- **Languages spoken:** English, Filipino

WORK EXPERIENCE

Full Stack Developer — EarthTrack.io, Singapore / Remote | July 2024 – Present

- Develop a field data collection system with NestJS, TypeORM and PostgreSQL, including REST APIs and database design.
- Implement mobile and web screens from Figma designs using React Native and Next.js in an Nx monorepo.
- Speed up design-to-code delivery by using AI-assisted workflows (Claude Code with Figma MCP).

Junior Full Stack Developer — Chugo Pte Ltd | Aug 2022 – May 2024

- Built a business card app with React Native, Node.js and Firebase that uses AI to scan, create and share name cards.
- Developed an e-commerce mobile app for Android and iOS with React Native and Node.js.
- Developed a dating app for Android and iOS with React Native and Directus.
- Built an e-commerce website with React and Node.js.
- Contributed to an online job platform where employers post part-time vacancies and part-timers find gigs.

Owner & Developer — JM Craftworks (printing and engraving shop), EB Magalona, Negros Occidental | June 2024 – Present

- Built in-house software for daily operations, including an offline ID photo app for walk-in customers.

Earlier Experience (Accounting & Operations)

- Regional Roving Accountant — Prycegases Inc. (Oct 2020 – Aug 2022): audited sales centers and an LPG plant.
- Field Associate, HR — Yearnings Outsourcing Cooperative (Feb 2019 – Aug 2020)
- Accounting Clerk (LTO Registration / IT) — Avescor Motors Bacolod Inc. (Jul 2017 – Oct 2018)

PROJECTS

Kalendaryo Studio — Next.js, React, TypeScript, Zustand, Supabase (PostgreSQL, Auth, Realtime), Yjs, Vercel

- Browser-based printable calendar designer for custom giveaway and business calendars, with templates, photos, decorations and multi-page designs.
- Cloud accounts with email and Google sign-in, an admin approval flow, and designs saved to Supabase with live updates across devices.
- Works offline with local copies (Yjs and IndexedDB) and syncs edits once back online.
- Print-ready export with paper sizes and multi-up print sheets, tested end to end with Playwright.
- Live at kalendario-studio.vercel.app

Facebook Page Autopilot — Node.js, GitHub Actions, Facebook Graph API, Telegram Bot API, Gemini API, FFmpeg, Supabase (pg_cron)

- Built an AI-assisted publishing pipeline for 3 Facebook pages with Telegram approval, auto-generated Reels (FFmpeg), and serverless scheduling (GitHub Actions + Supabase pg_cron).

Mobile POS System — React Native, Expo, SQLite

- Android point-of-sale app for small businesses with camera-based barcode/QR scanning and responsive portrait layout for all phone sizes.
- Designed a printer adapter interface to support Bluetooth thermal receipt printers (ESC/POS) and cash drawers as optional hardware.

ID Photo Studio — Tauri, React

- Offline Windows desktop app that turns phone photos into print-ready 1x1, 2x2 and passport ID photos with automatic face alignment and background replacement.
- Used daily in a live print shop; replaced a paid online background remover and kept full image quality.

Accounts Receivable Aging Tracker — Tauri v2, React, SQLite

- Desktop app that tracks unpaid invoices by age bracket for a small business, built in six documented phases with strict component conventions.

EDUCATION

Bachelor of Science in Information Technology — Carlos Hilado Memorial State College, Negros Occidental | 2017 – 2018
